

Verifications of Employment

Vensure Employer Solutions and our family of companies utilize The Work Number service from Equifax. The Work Number provides verifiers with an instant, automated solution for verification of employment and income that is available 24/7.

Verifiers are thoroughly credentialed, ensuring they have a permissible purpose before accessing only the employee data they are entitled to have. The Work Number requires verifiers to document employee-consumer consent to access income information. Consent is generally established via a signed acknowledgement at the point of application for a loan or service.

INSTRUCTIONS FOR USING THE WORK NUMBER

For Commercial or Social Service Verifications

Direct the organization requiring verification of employment or income to theworknumber.com.

Provide the following Employer Name & Code:

- › Employer Name: **Vensure Employer Services**
- › Employer Code: **15326**

To Access Your Own Employment and Income Data

Visit employees.theworknumber.com to sign up for access or to log into your account.

Provide the following Employer Name & Code:

- › Employer Name: **Vensure Employer Services**
- › Employer Code: **15326**

The Work Number service is available to those needing information 24 hours a day.
